

Semisynth 5W30

Description

This semi-synthetic fuel economy motor oil is produced with special selected mineral and synthetic base oils and a well-balanced choice of advanced additives to obtain the following properties:

- a lower fuel consumption
- a high and stable viscosity index
- a high resistance against shearing
- a fast cold start
- a strong resistance against oxidation
- a safe lubrication film at high temperatures
- a good detergency and dispersion power
- a strong protection against wear, corrosion and foaming

Application

This fuel economy motor oil is recommended for use in petrol- and diesel engines, with or without turbo-charging, in passenger cars and delivery vans with the specifications as stated below. This motor oil is specially developed for those cars, that ask for motor oils that fulfill the requirements of the Ford M2C913-A and Ford M2C913-B.
